

PH-SI 43 F

Advanced Programme Mathematics (AP Maths)

Fundamentals for Grade 9 (Grade 8 only after recommendation by Maths teacher with perspective taking AP Maths already in Grade 9)

PREPARE FOR AP MATHS Grade 10 in 2020

Dear learners, dear parents,

AP Maths (Advanced Programme Mathematics, formerly known as add-maths) provides an essential set of skills for learners intending on studying university courses in the future that may have a mathematical slant. (For more details please see flyer attached). AP Maths is more challenging than ordinary maths and requires a heightened level of understanding of certain foundational concepts.

This course is intended for anyone who is talented at mathematics and wishes to expand his/her knowledge, as well as those who would like to improve their mathematical skills; it will facilitate giving learners a more holistic understanding of mathematical concepts essential to Gr. 10-12 AP Maths.

We would therefore like to announce that for learners set to matriculate in 2023 (Gr. 9 2019) and who are interested in taking AP Maths, application for the course is now open. DSJ's AP Maths Fundamentals course will commence on the 30. July 2019, term 3. At the end of term 4, 2019, learners will write a test which, together with continual assessment throughout the two terms, will be used to provide parents and learners with a recommendation of whether or not the learner is ready to continue AP Maths Gr. 10 in 2020. Grade 8 enrolments should be recommended by the appropriate maths teacher.

The course's aims are as follows:

Term 3 – Improving mental arithmetic (basic operations, factors and factorising, fractions etc.) and critical thinking skills

Term 4 – Covering all topics algebra-related: variables, solutions to equations, factorisation and the quadratic formula, factorising higher order equations using the factor remainder theorem and dividing of polynomials.

Duration of course: Term 3 and 4 2019 **Language:** English

Number of participants: 6 - 24

Time: Tuesdays at 7h00 – 7h45

Fee: R 1 080 for the two terms (R 540 per term will be added to your school fee account)

Please enrol by 24 July 2019.

Thank you and kind regards,

Reiner Fossati

Neue Anmeldung – New Enrolment

PH-SI 43 F: Advanced Programme Mathematics (AP Maths) Fundamentals for Grade 9

Name des Schülers/ Schülerin/ Name of learner

Klasse/ Grade **Tel. No. der Eltern/** Cell or Tel. no. of parents

E-Mail

Bitte beachten: Eine Anmeldung ist verbindlich und gilt für ein halbes Jahr (außer Beitritt während des Quartals). Dies bedeutet es werden auch entsprechende Kosten fällig. Abmeldung aus dem Kurs bevor dieser beendet ist (nach einem halben Jahr) muss schriftlich (E-mail) spätestens in der letzten Schulwoche des laufenden Quartals erfolgen.

Please note: Enrolment is binding and valid for half a year (except enrolment takes place during a running term). That means fees will be charged. Any cancellation of a course before a course has terminated (half a year) has to be done in writing (Email) in the last week of the running term.
