

FÖRDERZENTRUM **PHÖNIX**  
**PHOENIX CENTRE**

## Phoenix Centre – March 2023

We are a diverse, supportive Centre for the whole DSJ community.

### Our vision is:

- To give our learners a space and opportunity to develop holistically.
- We achieve this by offering support for the academic, emotional and social development of the learners.
- We remain authentic and relevant
- We stay connected to our community – the learners, parents, staff and outside presenters
- We offer meaningful and purposeful learning programmes and curriculum support

It is imperative that the learners engage in their own learning process, are flexible, adaptable and navigators of the development.

### We achieve this by:

- Close collaboration with all stakeholders within the school community – parents, learners, colleagues
- Collaborating and giving and receiving feedback
- Encouraging a growth mindset where learners realise that learning is a process where mistakes can be made, and giving practical assistance and connections to solving problems
- Preparation and supporting in each phase of the school by encouraging the following:
  - Creativity and innovation
  - Critical thinking and finding solutions to problems
  - Collaboration
  - Character development by teaching social and emotional skills
  - Culture and ethical citizenship (sharing what we value)
  - Computer and digital technologies – transforming how we learn and lead
  - Communication – expanding perspectives
